

Name: Kotra Sai Soumya Sri

SRN: PES1UG24CS911

Class and Section : 5I

Deliverable: Use-Case Specification

---

Use-Case ID: UC-01

Use Case Name: Make Milestone Payment

Primary Actor: Client / Buyer

Supporting Actor: Payment Gateway

### **Preconditions**

1. Client is logged into the portal and authenticated.
2. A commission exists with a completed and approved milestone.
3. The final high-resolution asset has been uploaded by the Digital Artist.
4. The milestone payment status is pending.

### **Main Success Scenario**

1. Client opens the active commission page.
2. System displays the pending milestone payment details.
3. Client initiates the milestone payment.
4. System sends the payment request details to the Payment Gateway.
5. Payment Gateway processes and verifies the transaction.
6. Payment Gateway sends a successful payment confirmation to the System.
7. System records the payment status as successful.

8. System unlocks access to the final high-resolution asset.
9. System generates a time-limited download link.
10. Client downloads the final high-resolution asset.

### **Alternate Flow — Payment Failure**

Branch Point: Begins after Step 5 if the payment fails.

1. Payment Gateway rejects or fails to process the transaction.
2. Payment Gateway sends a failure notification to the System.
3. System keeps the final high-resolution asset locked.
4. System displays an error message indicating payment failure.
5. Client is prompted to either:
  - Retry the payment → returns to Step 3, or
  - Cancel the transaction → use case ends.

### **Postconditions**

#### On Success:

- a. Payment is recorded as completed.
- b. Final high-resolution asset is unlocked.
- c. Client receives authorized, time-limited download access.

#### On Failure:

- a. Milestone payment status remains pending.
- b. Final high-resolution asset remains locked.
